

Alternative Pallet Materials DIRECTORY

Alternative Pallet Materials DIRECTORY

Company Name	Unique Features
21st Century Plastics Corp.	Duralite Pallets nest together and can be stored in a compact stack. The designed-in lip around the perimeter functions to keep cartons from falling off the pallet.
Allied Plastics, Inc.	Allied Plastics manufactures plastic thermoformed pallets in multiple sizes and styles including customized pallets.
AplusPallets	All aluminum, made in the USA.
A.S.A.P. Inc.	Custom-sized modular skids and pallets made from 100% recycled post-industrial polyethylene. No tooling charges. Cleanable and repairable.
Bayhead Products	Mold flat top, units with rims, roll top, two-way, four-way, double-wall, single-wall, and other features. Specialize in molding pallets to customers' unique requirements.
Buckhorn	Buckhorn has more than 35 years of experience in designing, manufacturing and implementing reusable plastic pallet systems. Today's line includes a variety of pallets in sizes, weights and styles designed to fit your material handling operation.
Cabka North America	Cabka specializes in making plastic one-way shipping pallets that compete in price with heat-treated wood.
Compliance Packaging International	Compliance Packaging International has over 20 years experience working with export pallets such as euro pallets, chemical pallets, plastic euro pallets, and heat treated pallets of all sizes.
Conitex Sonoco	LoadRunner® corrugated pallets provide superb strength without the added weight of traditional wood pallets. Export ready, hygienic, safe, lightweight and 100% recyclable.
The Corrugated Pallets Company	Pallets from The Corrugated Pallets Company are FSC, recyclable, 70% lighter than wood, ISPM-15 compliant, and use at least 75% recycled material.
Corrupal Inc.	Corrupal is a manufacturer and designer of engineered corrugated pallets and innovative packaging that use recyclable materials.
CorTek, Inc.	CorTek offers corrugated/honeycomb pallets in custom sizes. Pallets are inexpensive, lightweight and 100% recyclable.
Creative Techniques, Inc.	Creative Techniques develops reusable custom pallets and pallet lids for use in the beverage, casting, machining, seating and semiconductor industries.
CTC Plastics	CTC's Export pallets are made from 100% recycled content, meets all international shipping standards, and are resistant to pest infestation, mold and mildew. The Xtreme line can withstand heavy loads, and won't break, warp, split or absorb contaminants.
DACO Corporation	Access to just about any style of plastic pallet including food grade, export, fire retardant, drum, nestable, stackable, rackable and custom module. Also offers pallet racking that can be used with plastic pallets, and many styles of containers.
Decade Products	RACX pallets are a certified "cradle to cradle" pallet in the market.
EcoDuro Inc.	Made from recycled material and completely recyclable. No bottom deck needed and runners travel well on rollers. Custom sizes and configurations available.
Enviro-Pack Material Handling Inc.	Offers a wide selection of pallet styles and sizes to provide the best material handling solutions to meet customer needs.
Erdie Industries	Sell both the pallet runners and pallets when quantities warrant, and the machine to produce customer's own pallet runners. Also manufactures mailing and shipping tubes, cores and other equipment, plus other fulfillment services.
Fibertech, Inc.	Fibertech Inc.'s unique angled-leg design for plastic pallets helps to reduce forklift damage by enabling the fork tines to deflect off the leg rather than breaking or cutting the pallet.
Flexcon	Flexcon's Plastic Pallets can be used to transport and store your products. Provides security for products, stackability for load unitization, long life and reusability for substantial cost savings, and 100% space efficiency.
General Pallet LLC	Full-service company with extensive industry experience. Offers both new and reconditioned pallets, along with pallet recycling programs. Also offers custom crates, metal and plastic pallets, and specialty items.
Green Label Packaging	Designed specific to the application. Saving money over a heavy-duty one-size-fits-all and ensuring the pallet works well for the manufacturer and the customer.
Gorilla Pallets	Gorilla Pallets offers over 200 different types of plastic pallets, and specializes in food-/pharmaceutical-grade pallets.
GreenLight Pallet	Unique and flexible manufacturing system provides an ability to meet a wide range of size and weight carrying solutions. Pallets are lightweight, safe, clean, ISPM-15 compliant, 100% recyclable, and if required offered in an alternative configuration resistant to high water/moisture environments.
Green-Tek, Inc	Green-Tek is a converter, fabricator and master distributor of greenhouse coverings and components, thermal glazing and plastic pallets.
Greystone Manufacturing	Pallets made of 100% recycled material.
iGPS	iGPS provides cost-efficient platform-based shipping solutions to some of the world's leading companies.
Indoff Inc.	Large selection of plastic pallets plus competitive pricing. Represent over 20 manufacturers of plastic pallets, and have 15+ stocking locations in the U.S. of used plastic and wood pallets. Over 30 years of experience. All new plastic pallets are manufactured in the U.S.
I-pallets	I-pallets use solid aluminum instead of extruded, making them more durable and lightweight. Offers unique pallet designs.
JECO Plastic Products, LLC	JECO's pallets are hygienic, reusable, good for returnables and long-lasting.
J.H. Nunn Associates	Non-slip decks, lips on top edge, rackable, nestable, warehouse, stackables and multi-colored.
Kamps, Inc.	Kamps specializes in new, reconditioned and remanufactured pallets. Build and ship 25 million pallets annually out of 11 locations based in the Midwest region of the country.
Kelly Box & Packaging Corp.	Manufactured to a specific use, recyclable and re-pulpable, can be put into wet conditions, can integrate cartons into the pallet deck, safe to use in food processing operations.
LITCO International, Inc.	Inca presswood pallets meet the IPPC-ISPM 15 heat treated requirements. No special stamping required for international shipping. Available in a wide range of small to large sizes from 24"x32" to all of the most popular large sizes including the 48"x40" and the 48"x48"
Metalpallet.com	Makes pallets to customers' requirements using galvanized and aluminum materials.
Millwood Inc.	Provides standardized pallets or customized to the customer's application. Packaging and Design Lab can test packaging requirements to ensure total tower cost in packaging, improved protection and help to meet sustainability goals.
Monoflo International	Monoflo's high-pressure injection molded pallets are engineered to withstand the rigors of any application by offering exceptional strength to weight ratios.
M&S Industrial Steel Fabrication	M&S works with all types of metals. Its services include repairs, modifications, upgrades, and new fabrications.
The Nelson Company	Export pallets are priced to compete with wood while being ISPM compliant. Eight locations that stock wood and plastic pallets. Been in business since 1921.
One Way Solutions, LLC	Third-generation, family-run business offering exceptional products, industry leading prices, and outstanding customer service. Very competitive with pricing and aim to keep customers satisfied with inexpensive wood alternatives.
ORBIS Corporation	ORBIS has manufacturing locations throughout North America and is the only multi-process manufacturer in the pallet industry. Processes include thermoforming, injection molding and structural foam molding. ORBIS offers nestable, rackable and stackable pallets in footprints from 20"x28" to 48"x72".
Packaging Unlimited, LLC.	SureStacker corrugated pallets are portable, durable, lightweight, safe and recyclable.
Packnet Ltd.	Packnet offers engineered pallet solutions from foam, wood, metal components and other cushioned designs. Quantities available from 1 to 10,000.
Pak-Rite, Ltd.	Pak-Rite manufactures and distributes containers and pallets for both single or limited reuse (expendable) applications and returnable/reusable applications.
PalletKraft North America Corp.	PalletKraft can construct pallets that are ideally suited to carry more than 80% of all goods shipped in the U.S. And, they are the perfect solution for companies exporting to foreign markets.
Pallet Systems of America	Pallet Systems of America designs, manufactures and distributes customized shipping solutions and work-in-process pallets for commercial and industrial users.
Pallets Unlimited	Pallets Unlimited provides many different types of pallets, and all the support customers need to keep their products and business on the move.
PDQ Plastics, Inc	Since 1969 PDQ Plastics has been supplying industry with heavy-duty plastic pallets. PDQ's Super Plastic Pallets are available in a variety of sizes and colors and are designed to last for years under the toughest conditions. Also supplies a line of one-way export grade pallets, always in stock for immediate delivery.
Pendaform	Developed 1,000+ pallet configurations. Pallets use 100% recyclable material. Pallets with steel reinforcement available.
Plastic Pallet & Container, Inc.	Offers a wide variety of plastic pallets available for virtually every application. Whether it's exporting lightweight products or closed loop shipping of multi-ton steel coils.
Plastic Pallet Creations, Inc	Pallets are made from recycled plastic and completely recyclable. Features include 4-way entry and nesting capability.
Port Erie Plastics	Port Erie Plastics produces the proprietary Skidmax® Plastic pallets. It also offers custom injection molding, mold making and other plastics processing services.
Rehrig Pacific Company	Pallet design incorporates optimized wall thickness (thinner) and rib structure (thicker) to produce a platform that is lighter, yet stronger, with exceptional durability.
Reusable Transport Packaging Inc.	Has a wide range of pallets to fit any application. Offers many standard nestable, stackable and rackable pallets, as well as custom solutions. Makes custom plastic and metal pallets to meet customer-specific requirements.
Robinson Industries	Robinson Industries designs, engineers and manufactures thermoformed and injection-molded plastic pallets in standard and custom styles.
Recycled Plastic Materials Inc.	RPM offers a wide variety of plastic pallets including drum pallets, export pallets, nestable pallets, rackable pallets, and FDA-approved pallets.
Schoeller Allibert Inc.	Plastic pallets meet all logistics requirements: display, light, medium, heavy and clean room models. Durability, profitability, hygiene, safety are pallet's main benefits.
Shuert Technologies	Prime HDPE twin-sheet thermoformed pallets available with proprietary anti-skid surface and non-halogen, non-deca BDA fire-retardant.
Soluplastic	Soluplastic offers a large selection and variety of pre-owned, reconditioned pallets in the industry. Extensive inventory to meet customer needs.
SPG International, LLC	SPG offers many standard styles and capacities of pallets.
St. Mary's Box Co. Inc.	Patented wrapping technology strengthens the deck and stringers of the LIFT Pallet and provides cushioning with 50-80% shock absorption. Export ready, lightweight and cost effective with water-resistant options available. Made in USA and 100% customizable and recyclable.
Stratis Plastic Pallets	Pallets are molded in one piece and do not crack, break and chip; durable with average life of 15 years or more in normal plant conditions; able to make special sizes with smaller orders; huge selection of odd sizes.
Streator Dependable Mfg.	Streator Dependable's steel and aluminum pallets are strong, fire resistant, easy to clean, and can reused indefinitely. Ideal for supply chain loops.
Ted Thorsen Material Handling	Ted Thorsen has been a distributor of material handling and packaging material since 1953. Offer customization options on many items.
TMF Corporation	Provides pallets that are sanitary, safe, rugged and designed to meet the most demanding environmental hazards and work environments. Always in stock and ready to ship, PROTECH Pallets are high in quality, efficiency and cost effectiveness.
TranPak, Inc.	An industry leader for 21 years, TranPak carries stock for next day delivery. Warehouses in California, Utah, Texas and Missouri. Ability to create custom plastic pallet solutions.
TransPac	TransPac plastic pallets are designed and manufactured to the highest standards to ensure quality, strength, and value. Injection-molded, high-density polyethylene construction means that TransPac pallets will last long and give exceptional service.
TriEnda, LLC	Safe, clean, and durable pallets are designed to meet the needs of multi-markets.
Triple A Containers, Inc	Triple A Containers, Inc. manufactures a corrugated pallet designed for multiple uses in all types of industries. Triple A also supplies wooden pallets with corrugated packaging and foam inserts for protective shipping of fragile components.
U.S. Plastic Pallets & Handling	U.S. Plastic Pallets & Handling offers many types of pallets including export, nestable, stackable, rackable and custom-made.
Unipal International Ltd. Co.	The UNIPAL product line of corrugated pallets can be designed and manufactured to handle a wide range of loads. In most cases they are one-third the weight of wood, clean, safe and avoid all requirements designated by regulatory agencies for international shipments.
United States Plastics Corp.	United States Plastic Corp. manufactures and distributes some 25,000 plastic items serving over 85,000 clients.
OptiLedge LLC	OptiLedge pallet alternatives not only result in unit loads that are integral to the packaged product during its storage and distribution, but they also improve efficiency and are recyclable.
Universal Package Systems	Offer a variety of standard and custom pallets and skids including thermoformed, injection molded, plastic compression molded, LGFR, corrugated, aluminum, steel, paperboard, ESD. Nestable pallets, rackable pallets, stackable pallets, slave pallets, export pallets, light duty, medium duty, and heavy duty.
Vantage Plastics	Vantage Plastics has over 30 standard single sheet mirror image pallets, twin sheet roller conveyor-able pallets, and covers. Offers sizes from 24" x 36" up to 69" x 120".
Worldwide Material Handling	Worldwide Material Handling wire mesh pallets are 100% steel and galvanized after weld. Ideal for in-house or closed-loop pallet distribution systems.
Worthington Steelpac	Steelpac Pallets are reusable and have exceptional stability and strength. Pin pallets or custom designed pallets using in-house roll formed parts or standard steel components.
